OBJECTIVE

I am eager to become a full-stack developer, leveraging my expertise in creating responsive, user-friendly web applications. With hands-on experience in integrating APIs, managing databases, and ensuring SEO optimization, I focus on delivering seamless, dynamic user experiences. Passionate about web development, I am committed to continuously improving my technical skills in both front-end and back-end technologies.

EDUCATION

Bachelor's in Computer Science Engineering
Graduating May 2025
Uttarakhand Technical University
7 CGPA
College of Engineering Roorkee, Uttarakhand
Relevant coursework: DSA, DBMS, OOPS, CN

TECHNICAL SKILLS

Languages: Java, Python, JavaScript
Development Stack: React.js, Node.js
Database: MySQL
Developer Tools: Git, Postman, VS Code

EXPERIENCE

Web Development Intern, Bharat Interns (Remote)
July 2024 – August 2024

- Gained valuable hands-on experience in web development during my internship, enhancing my skills and knowledge.

- Applied knowledge of HTML, CSS, JavaScript, and frameworks like React.js to build responsive and dynamic websites.

- Worked with GitHub for version control and collaboration, improving code management and teamwork.

- Optimized web application performance with a focus on speed and user experience.

ACADEMIC PROJECTS

Airbnb-Inspired Property Rental Platform (Full-Stack Development)

- Developed both the front-end and back-end for a property rental platform inspired by Airbnb.

- Created a user-friendly interface adaptable to all devices.

- Implemented features for property listings, booking management, and user interactions using dynamic web technologies.

- Managed the development process using Git and GitHub, ensuring smooth collaboration and code maintenance.

Real-Time Weather App

- Built a weather app that fetches live weather information for specific locations.

- Integrated a weather API (e.g., OpenWeather or WeatherAPI) to provide current conditions, forecasts, and detailed data.

OTHER WORK EXPERIENCE

Tech Committee Member, College of Engineering Roorkee
August 2021 – May 2023

- Organized hackathons and conducted sessions for 300+ students on web development topics.

ACHIEVEMENTS

- Solved various coding problems and received recognition.

- Currently ranked in the top 20 in GeeksForGeeks Practice at my college.

- Solved more than 500 problems across different coding platforms.
